Cosmic Route Of
Cryptofy Digital
Ecosystem

Introduction

In the ever-evolving landscape of digital assets and decentralized technologies, the concept of a metaverse has emerged as a compelling vision of immersive virtual worlds that intertwine with our physical reality. This whitepaper presents a groundbreaking initiative that combines the enduring value of cryptocurrencies with the limitless possibilities of the metaverse. The convergence of blockchain technology, virtual reality, and augmented reality has given rise to a new frontier known as the METaverse. We introduce a metaverse coin - CRYPTOFY COIN and CRYPTOFY CLASSIC COIN designed to fuel transactions, enable seamless interactions, and establish a robust and secure economic framework within this virtual realm.

Cryptofy Digital White Paper

CRYPTOFY COIN(CFYC)

Part One

Cryptofy Digital
White Paper

CRYPTOFY COIN (CFYC) is a decentralized metaverse coin, that bridges the gap between the virtual world and the real world, by aiding seamless, secured, and fast transactions. It's very economical and has fast processing power per second powered by the CRYPTOFY SMART CHAIN (CSC). CFY is a metaverse coin of CRYPTOFY DIGITAL ECOSYSTEM, a blockchain company that offers cryptocurrency and blockchain services to clients around the globe.

CRYPTOFY CLASSIC COIN (CCC)

Part Two

—
Cryptofy Digital
White Paper

CRYPTOFY CLASSIC COIN (CCC) is a metaverse coin built on the XRP blockchain, used for cross-border payments and all kinds of meta-payment.

Cryptofy Classic Coin

Cryptofy Digital Ecosystem

Part Three

The CRYPTOFY DIGITAL ECOSYSTEM is a utility cum community-driven ecosystem that aims to bring its users to the forefront of blockchain technology through its applications:

1. CRYPTOFY CONNECT
2. CRYPTOFY Wallet
3. CRYPTOFY MUSIC APP
4. CRYPTOFY RIDE
5. Cryptofy Exchange
6. CG Bank Partnership

Join us on our journey to the cutting edge of blockchain technology and be part of the future.

Aims And Objectives

Part Four

1. To bridge the gaps associated with digital transactions across the globe.
2. Using the blockchain technology as a means of assisting job seekers and recruiters without being spammed or scammed of their time and resources.
3. To ensure secured transactions across all our channels using ZeroLoss Fintech.
4. To drive the knowledge and use of blockchain technology and cryptocurrencies to all parts of the world especially remote villages.
5. To ensure the adoption of crypto trading and easy access to cryptos in many sectors of the economy.

CRYPTOFY HEALTH

At CRYPTOFY DIGITAL, we aim to revolutionize the use of blockchain technology in the healthcare sector by enhancing data security, privacy and interoperability.

MODE OF OPERATION (MODUS OPERANDI)

- Δ Secure storage and easy access to Electronic Medical Records (EMR) for patients.
- Δ Verifying and tracking Clinical Trials data for increased transparency.
- Δ Implementing a Supply Chain Management system using blockchain to track the journey of pharmaceutical products from manufacturer to patient, helping prevent counterfeiting and improving supply chain transparency.
- Δ Using blockchain technology to securely encrypt and share genetic information, enabling the advancement of personalized medicine.

We at CRYPTOFY strive to eliminate data loss and ensure that patients' medical records are accessible to authorized healthcare providers worldwide. The data will be securely encrypted and only released with the patients' consent.

Our goal is to simplify medical record keeping through the use of CRYPTOFY and blockchain technology, reducing the need for minimizing the risk of records being lost or discarded. We are determined to make a positive impact on the healthcare industry through the use of the blockchain technology.

CRYPTOFY JOBS

With the aid of our platform, jobseekers can access varieties of job descriptions according to their skills, professions, level of education and or experience. We'll do our best to minimize the rigorous unimportant processes associated with accessing job opportunities by granting direct access to recruiters. NO SPAMS, NO ANNOYING SURVEYS. NO SCAM. This unique site can ONLY be accessed by users that hold CRYPTOFY COIN(CFYC).

CRYPTOFY RECRUITS

Most times, it's difficult for recruiters to access real jobseekers due to the scams associated with the use of social media in recruits. At Cryptofy digital, we'll ensure that those that bring /upload job opportunities to our site are real and no third-party sites involved. This we hope to achieve by leveraging on the weaknesses of other recruit sites. With the aid of our tech crew, recruiter will be held accountable via their CFYC wallets. Interviews and subsequent promotion of employees will be carried by the recruiters on a successful job offered. We aim to the stop/mitigate scams that comes with job recruiting and employment.

Other use cases are from our partnership with many good projects such as:

- Δ IVENDPAY: To provide crypto Point of Sale (POS) machines to our subscribers.
- Δ ZEROLOSS FINANCE: For Payment Integration.
- Δ FAVOOM: A social media site with a unique crypto wallet feature.
- Δ WNDO: It's an E-store owned by COINBASE where purchases are made with cryptos.
- Δ NEXT.EXCHANGE
- Δ CRYSTAL ENERGY.
- Δ CG Bank
- Δ ALBMER ENERGY
- Δ NFT IT

Application Driven By Cryptofy Digital Ecosystem

Part Six

CRYPTOFY CONNECT:

is a digital chat app that connects people across the globe through chats, audio and video, and virtual meetings as well as allows seamless transactions on the platform. Gifting of CFYC is also enabled on this app.

Business Model:

Cryptofy Connect is a social-Fi platform built on the blockchain that rewards users in crypto. It's a purely decentralized platform for instant messaging and voice-over-IP service owned by Digital Tech Cooperation – CRYPTOFY DIGITAL.

It allows users to send text, voice messages, and video messages, make voice and video calls, and share images, documents, user locations, P2P transactions, and other features using blockchain technology.

This is an ad-free platform that has its focus on giving its users the best user interface and experience. Unlike most platforms, ads are free but this is a way to attract real users and draw traction to our platform. It will allow its users to build their business profiles and become verified businesses. These verified businesses can create their business profiles along with other important links to their website or Facebook page, set up autoresponders, link their office lines with the platform, and possibly integrate our API with their product offering.

Our API allows other businesses to integrate their systems with ours to reach out to customers through notifications, deal with their queries automatically, and settle payments using the most preferred crypto on our platform. To prevent ad spam to users, the company restricts the ability to send messages to unknown or unsaved contacts. Businesses can only send messages to people who have contacted them first, but the API will also help them algorithmically send shipping confirmations, appointment reminders, or event tickets to their customers. The sources of revenue are as follows:

SOURCES	REVENUES
P2P Transactions	\$2 per transaction
Data-currency converter	Crypto rewards
Sales of gift emojis	Earning Crypto just like dollars in Snapchat and TikTok.
Crypto integration	Paid Collaborations with other great project cryptos.RRR
Network fees	This depends on the network used while transacting.
Promotion Channels	Subscription fees from users and access to high-profile accounts.
Status promotions	Since all users paid subscription fees, anyone who wants access to statuses pays for it.

CRYPTOFY WALLET:

Cryptofy Wallet aims to make cryptocurrency more accessible for everyone by enabling users to buy, send, receive, stake, trade, and store digital assets. It's a non-custodial wallet that allows users to retain control of their private keys and digital assets, including cryptocurrencies and NFTs. Users MUST keep their private keys safe and in the correct order for backup purposes.

CRYPTOFY MUSIC APP:

CRYPTOFY MUSIC APP is designed for promotions and purchases of all genres of music and artists just like we have on Apple Music, Spotify, etc. This will be sorted in alphabetical order, top trending, hip-hops, raps, blues, etc. and purchases on the platform will be made with CRYPTOFY COIN. Listening to music is possible on this app. This application will also feature "Cryptofy for Artists", a channel that allows artists of different genres of music to upload their content, connect their Cryptofy wallet and receive their payment as users stream or download their albums. The distribution ratio is 60:35:5. That is, 60% goes to the content owners 35% to the cryptofy ecosystem, and 5% to the listeners.

Business Model:

The AI tech integrated is designed to automate streaming rewards to creators, the platform, and listeners as stated above. The music app aims to reward all contributors on the platform. The MINT ME function converts data spent to cryptocurrency too. The app uses a premium business model to generate revenue through paid subscriptions and advertisements. Users are allowed to choose from various premium plans that suit the collective number of users and offer discounts. The target is a 500 million active user base in more than 170 countries.

CRYPTOFY RIDE:

CRYPTOFY RIDE enables users to exchange services for cryptocurrencies. Payments for services rendered using the rides, that is transport vehicles, can be made using digital assets made available on the platform. This will be one of the leading taxi apps in no distant time. To ensure security of all users of our platform, KYC is made available on registration and crypto card payment is possible.

CRYPTOFY EXCHANGE:

CRYPTOFY EXCHANGE is the exchange and trading platform of the ecosystem. It's there to service functions like leverage trading, spot, and staking, a marketplace for vendors, and market makers, and a launchpad for developers and lending.

Token Distribution/Tokenomics Of Cryptofy Digital Ecosystem

For CRYPTOFY COIN, the total supply is 250 million CFYC. For the Private sale, 8% of the total supply will be sold. For every investor that took part in the private sale, 90% of their investment will be auto-locked for 365 days and ONLY 10% will be available for withdrawal. This is to ensure the longevity of the project and maintain stability on the LIQUIDITY POOL.

For liquidity pool farming, 15-30 days but in a case where an investor is impatient, taxation for emergency withdrawal is 8% of his total investment.

Tokenomics:

10% Operations, 32 months vesting, 12 months cliff.

15% Developments, 60 months vestings, 12 months cliff.

10% Marketing, 48 months, 12 months cliff.

10% General Reserve, 60 months, 12 months cliff.

10% Seed

8% Sale

2% Airdrop

5% Ecosystem & Referrals

10% Liquidity & Market Making

3% Influencers and Advisors

10% Team

2% Reserve
